Description

Globe Scientific shorty serological pipettes are approximately 1/3 shorter than standard serological pipettes of equal volume and offer improved ergonomics and enhanced freedom of movement when used in confined spaces. The pipettes are manufactured under strict ISO 9001:2008 standards in a class 100,000 cleanroom. They are non-pyrogenic, non-cytotoxic, RNase-free and DNase-free. The pipettes are equipped with an aerosol barrier plug that prevents both liquid and aerosols from contaminating the pipettor. Printed black graduations prevent ambiguity and guarantee precise reading with less than 2% inaccuracy at full volume. Calibration is certified for accuracy.
