X1

Monitor Cart

About the Tryten X1

1 SECURE AND FLEXIBLE MOUNTING

The Tryten X1 medical tablet cart offers secure and flexible mounting options for your devices, allowing you to adjust its height, angle, and orientation along the channel stripping with different brackets to fit your needs.

2 VERSATILE MONITOR SUPPORT

The Tryten X1 medical cart provides a secure and adaptable mounting solution for a wide range of monitors, making it ideal for healthcare environments where multiple devices need to be supported. This cart has been ISO 9001:2015 certified and tip tested for up to 42" monitors, the base is 22"x20" providing stability for larger monitors and peripherals.

3 DURABLE CONSTRUCTION

The Tryten X1 medical tablet cart is built to last, with a durable steel frame that can withstand heavy use and a powder-coated finish that resists scratches and corrosion.

4 COMPATIBLE WITH VESA MOUNTS

The X1 cart is compatible with VESA mounts, making it easy to attach and detach monitors to the cart as needed.

5 EASY MOBILITY

The cart is equipped with four swivel casters that allow it to be easily moved around the room, and each caster has a locking brake to keep the cart securely in place when needed.
