Operation Manual for Control Panel XMT-308

Warm & Cozy Blanket Warmer

1. **Pls refer to "User's Manual" first. All of Warm & Cozy blanket warmer include "User's Manual" at the carton box.**

2. The temperature control

1) The factory set the temperature at 130 F (Fahrenheit) +- 10%

   After turn-on the power, pls wait about 30 minutes for it to fully heat up.

   The temperature will be moved from 115 F to 145 F.

2) For re-set the temperature

   a) PRESS & HOLD **the UP or DOWN arrow button** for about 2-3 seconds.

      Then select the desired temperature setting by pushing the up or down arrow button to increase or to decrease the temperature.

   b) Once a desired temperature has been selected, push **SET button** to save the temperature.

3. Re-Set the initial value (to make the factory re-set value)

1) Pls refer to attached **XMT-308 Temperature Control Instruction Manual**

   (at the 2nd page, pls refer to "First Menu" for ex-factory value.)

2) PRESS the SET button for 2-3 seconds.

   Window display **INDEX SYMBOL** (ex, AL, SC, P, I, d, t, hy, At, Loc)

   and **INDEX VALUE** (ex, 200, 0, 15.0, 240, 30, 10, 1.0, OFF, 0).

3) Re-Set the initial value

    a) Press **the SET button** for 2-3 seconds.

    b) INDEX symbol **"AL"** will be display (High Limit Alarm)

        ⇨ By using UP or Down button to make INDEX value with "**200**" and Press "SET" button one more time to save.

        ⇨ Automatically the display will be next Index Symbol of "**SC**".

    c) INDEX symbol **"SC"** ➜ INDEX value "**0**"

    d) INDEX symbol "**P**" ➜ INDEX value "**15.0**"

    e) INDEX symbol "**I**" ➜ INDEX value "**240**"

    f) INDEX symbol **"d"** ➜ INDEX Value "**30**"

    g) INDEX symbol "**t**" ➜ INDEX value "**10**"

    h) INDEX symbol "**HY**" ➜ INDEX value "**1.0**"

    i) INDEX symbol "**At**" ➜ INDEX value "**OFF**"

    j) INDEX Symbol "**Loc**" ➜ INDEX value "**0**"

    k) After 2-3 seconds, the current temperature will be displayed.
